

# DeMax and DemaTron Detachers

Simply smart detacher systems  
for all milking parlors

# DeMax 55

Detacher with flow sensor

**Simple, convenient controls** — ergonomic control panel at each stall plus optional remote start or easy start (vacuum only).

## Standard features

**Central start and clean** — push one button to start milk or wash mode for the whole parlor.

**Reattach/manual milk capability** — for handling of special needs cows.

**Drop down feature** — easier access to the cow in parallel parlors.

**Vacuum on delay** — better vacuum stability.

## Optional features

- Kick-off alarm
- Milk save feature
- Backflush control

**Basic parlor management with DairyPlan C21.**

# DeMax 55S

Sleek Detacher with flow sensor

**Most economic version.**

**Single button and light operation** — no control panel.

**Three push button options** — choice of electric, compressed air or atmospheric air.

**Same standard and optional features as DeMax 55.**

*VisoFlow sensor is the industry standard for accurate flow sensing and positive vacuum shutoff.*

*Optional remote start button.*

# DemaTron 60

Detacher with cowside display of milk yield indication

**Simple, convenient controls** — ergonomic control panel at each stall plus optional remote start or easy start (vacuum only). Displays milk yield indication, and with I.D., the display alternates with cow number.

## Standard features

**Central start and clean** — push one button to start milk or wash mode for the whole parlor.

**Reattach/manual milk capability** — for handling of special needs cows.

**Drop down feature** — easier access to the cow in parallel parlors.

**Vacuum on delay** — better vacuum stability.

**Conductivity monitoring with identification.**

## Optional features

- Kick-off alarm
- Backflush control
- Milk save feature
- One-time sort with identification and sort gates

**Basic parlor management plus milk weight (non-ICAR approved) evaluation with DairyPlan C21.**

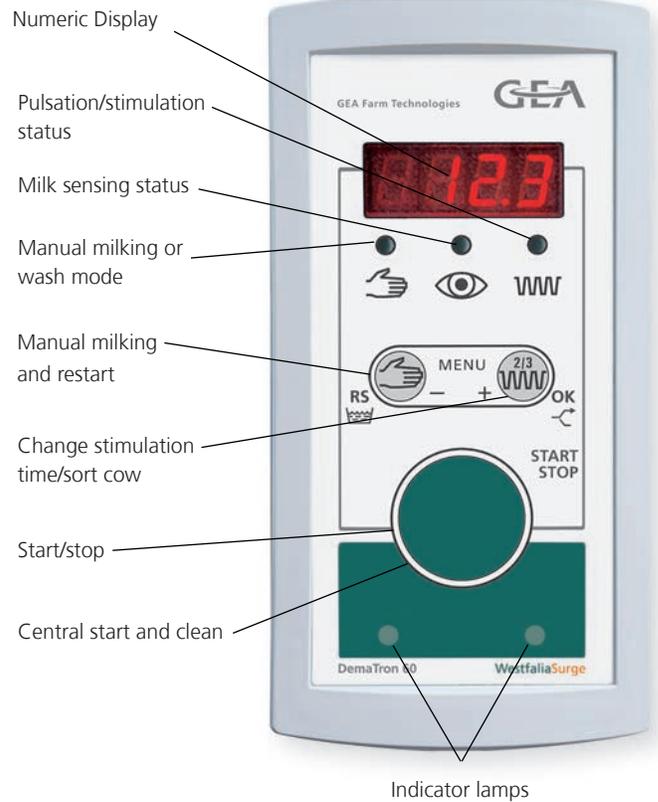

# DemaTron 60S

Sleek Detacher with milk yield indication at the computer

**Single button and light operation** — for dairy producers who want milk yield indication where no in-parlor interface is required.

**Best used with cow identification** — for milk yield indication and parlor management data.

**Same standard and optional features as DemaTron 60.**

*LactoFlow flow through meter is a proven flow sensor with conductivity monitoring.*

*Optional remote start button.*

# DemaTron 70

Detacher with cowside display of milk weight

**ICAR approved milk weights** — highest accuracy with conductivity monitoring.

**Simple, convenient controls** — ergonomic control panel at each stall plus optional remote start or easy start (vacuum only). Displays milk weights with I.D.

## Standard features

**Central start and clean** — push one button to start milk or wash mode for the whole parlor.

**Reattach/manual milk capability** — for handling of special needs cows.

**Drop down feature** — easier access to the cow in parallel parlors.

**Vacuum on delay** — better vacuum stability.

## Optional features

- Kick-off alarm
- Milk save feature
- Backflush control
- One-time sort with identification and sort gates

**Basic parlor management plus milk weight evaluation with DairyPlan C21.**

*Optional butterfat sampler on DemaTron 70 and DemaTron 75.*

# DemaTron 75

Detacher with ability to enter cow I.D.

**ICAR approved milk weights** — highest accuracy with conductivity monitoring.

**Simple, convenient controls** — ergonomic control panel at each stall plus optional remote start or easy start (vacuum only). Displays milk weights with I.D.

## Standard features

**Central start and clean** — push one button to start milk or wash mode for the whole parlor.

**Reattach/manual milk capability** — for handling of special needs cows.

**Drop down feature** — easier access to the cow in parallel parlors.

**Vacuum on delay** — better vacuum stability.

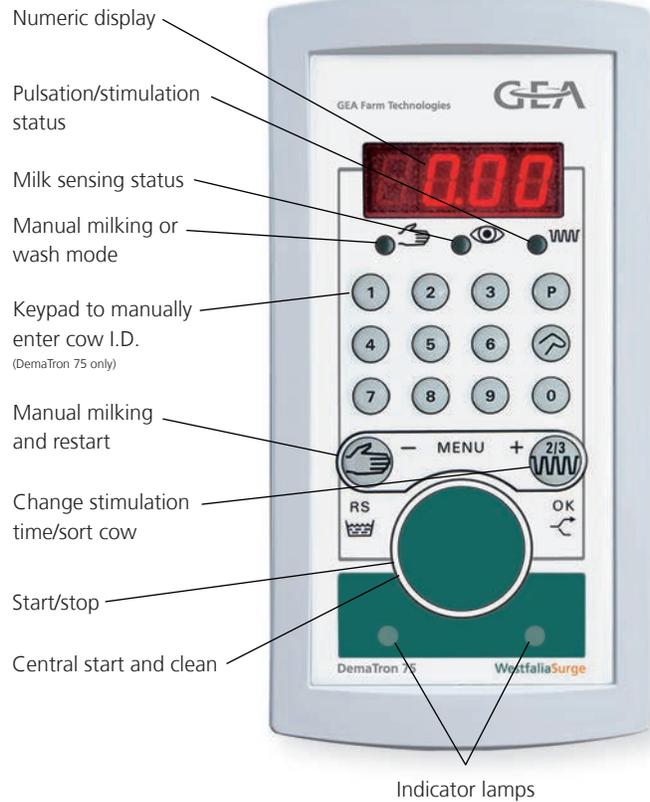

## Optional features

- Kick-off alarm
- Milk save feature
- Backflush control
- One-time sort with identification and sort gates

**Basic parlor management plus milk weight evaluation with DairyPlan C21.**

## Additional features for the DemaTron 75

- Numeric keypad included
- Enhances DemaTron capabilities by adding the ability to manually enter cow I.D.
- Allows operator to enter stall number and cow number to correct any I.D. errors

*Metatron Milk Meter used on DemaTron 70 and DemaTron 75.*

# DeMax and DemaTron family features

Requested by today's modern dairy producers

**Herd management function** — all detachers can communicate with DairyPlan C21.

**Master control unit mounting** — stays clean and dry in cabinet or subway.

## Labor saving programmable features

- Push button functions including start/stop and manual and wash
- Detach settings, flow rates and delay times
- Pulsation settings, stimulation time and rates and ratios

## Flexibility of parlor design

- Stand alone
- Subway
- Medallion cabinets
- Vacuum rope option
- Compressed air-operated chain option

## Durability — low maintenance

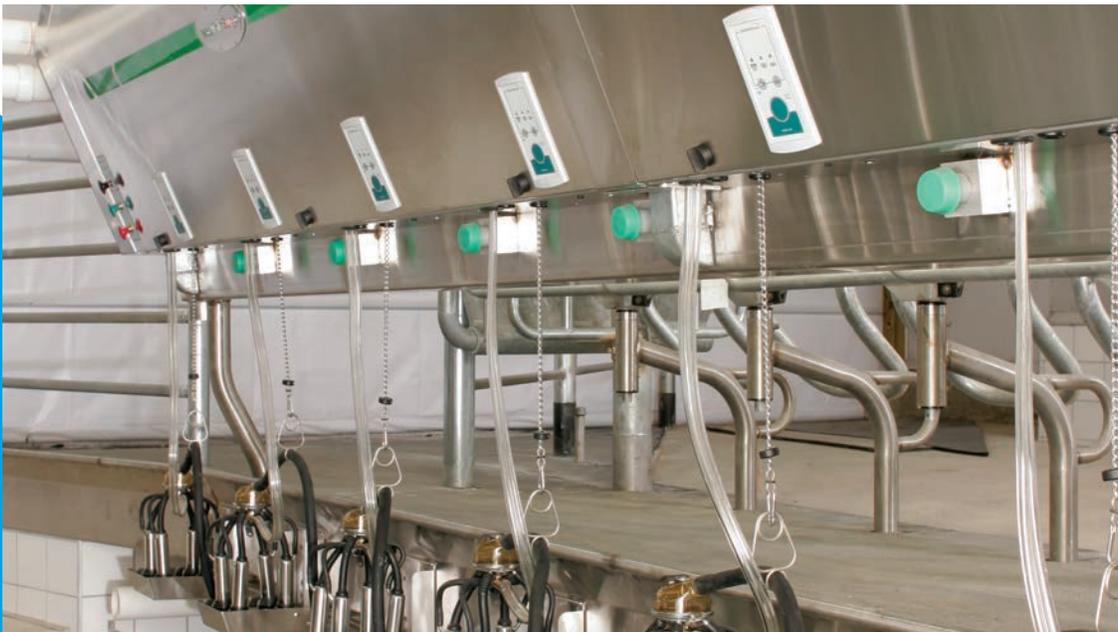

- Master electronic located out of harms way
- All three sensors made of Radel material
- Waterproof control panels

## Operates pulsator

- Stimupuls Apex M
- Autopuls Apex M
- Pulsator shutoff at unit removal

**Simplicity** — master electronic is central connection point for shifting value, sensor and pulsator.

**Upgradable** — add-on features within a family.

*DemaTron 60 stand-alone mounting*

*Medallion cabinetry*

*Herringbone stall cabinetry*

## We live our values.

Excellence • Passion • Integrity • Responsibility • GEA-versity
