

CowCleaner Duo

Rotating cow brush

CowCleaner Duo

Improve cow cleanliness and cow comfort with the CowCleaner Duo

The two-brush configuration of the CowCleaner Duo helps to ensure that a larger area of the cow (head, neck, brisket, back, tailhead and sides) are brushed and cleaned. Plus, cows seem to enjoy the massage action they receive with a brush cleaning

High-quality Nylon (Polyamide) bristles — promote a long service life as they are more resistant to wear.

Easy activation — the brush is activated by lifting up the top brush. An inductive sensor monitors the resting position of the frame.

Direction of rotation is alternated at each use — results in even wear of the bristles.

Brushes should be installed in low traffic areas. Each brush can effectively accommodate up to 60 cows.

multiple body locations at the same time with some added pressure. Cleaner cow hides help to maintain overall cow health and keep lice, mites and other parasites at bay.

Vertical brush is fixed at the top and bottom — so it can withstand high pressure on the lateral side.

Informative display — control box screen shows status information and any error codes.

Adjustable running cycle time — can be easily changed from 7.5 to 120 seconds.

One-year warranty.

Other Features

- Heavy-duty motor and gearbox
